

34 kVA

OUTPUT

OVERVIEW

The BES34S3 is a 34kVA hybrid system that integrates solar, battery storage and a diesel generator in one unit. A LiFePO4 air-cooled battery pack is managed by a smart AC/DC energy management system, and the system can charge from and discharge power to the grid.

STANDARD FEATURES

- Integrates solar, battery storage and diesel generator in one system
- LiFePO4 air-cooled battery pack
- Smart AC/DC energy management system
- Plug and play interface with RCD leakage protection
- Leak-proof, large-capacity fuel tank
- Super-silent structure with remote cooling system
- Fire safety system built in
- Can charge/discharge power to the grid for peak-load support or backup
